Draw Diagrams With Markdown

Typora supports some Markdown extension for diagrams, you could enable this feature from preference panel.

When exporting as HTML, PDF, epub, docx, those rendered diagrams will also be included, but diagrams features are not supported when exporting markdown into other file formats in current version. Besides, you should also notice that diagrams is not supported by standard Markdown, CommonMark or GFM. Therefore, we still recommend you to insert an image of these diagrams instead of write them in Markdown directly.

Sequence

It is powered by js-sequence, which would turn following code block into rendered diagrams:
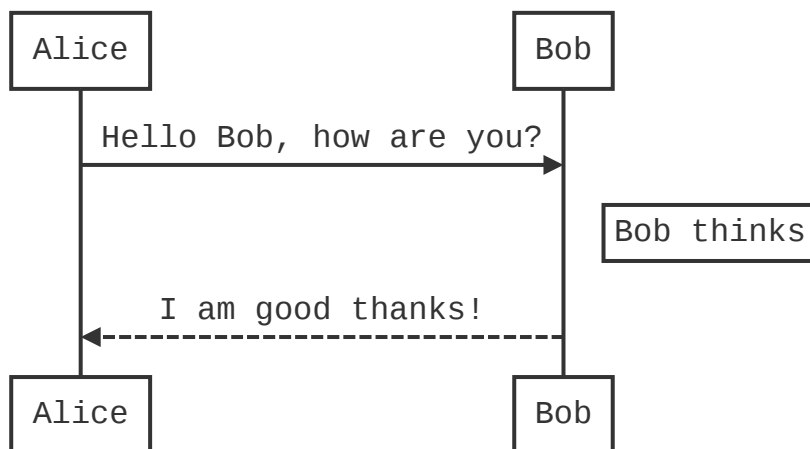

Please refer here for syntax explanation.

Flowchart

It is powered by flowchart.js, which would turn following code block into rendered diagrams:

Mermaid

Typora also has integration with mermaid, which supports sequence, flowchart and Gantt.

Sequence

Alice

Bob

Hello Bob, how are you?

alt

[is sick]

Not so good :(

[is well]

Feeling fresh like a daisy

opt

[Extra response]

Thanks for asking

Alice

Bob

Flowchart

see this doc

One → Result one

Hard edge → Round edge → Decision

Two → Result two
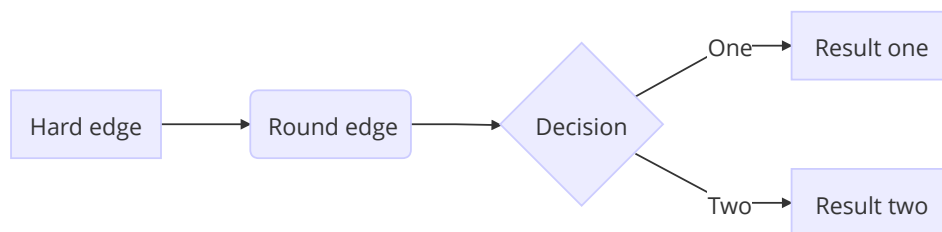

Gantt

see this doc

Adding GANTT diagram functionality to mermaid

Completed task	

A section
- Active task
- Future task
- Future task2

Critical tasks
- Completed task in the critical line
- Implement parser and jison
- Create tests for parser
- Future task in critical line
- Create tests for renderer
- Add to mermaid

Documentation
- Describe gantt syntax
- Add gantt diagram to demo page
- Add another diagram to demo page

Last section
- Describe gantt syntax
- Add gantt diagram to demo page
- Add another diagram to demo page
